Schreiner's Gardens

DAYLILIES
AND IRIS

Route 2, Box 327

SALEM, OREGON

Librarian
U. S. Dept. of Agric.
Washington 25, D. C.

Sec. 562, P. L. & R.
U. S. POSTAGE
PAID
SILVERTON, ORE.
Permit No. 50

CITY OF LINCOLN

ALL IRIS plants are shipped packed in dry excelsior. All you need to do is plant them when received, water to firm the soil and cultivate lightly around the plant to prevent baking of the surface soil by summer sun. Repeat watering only in case of prolonged drouth. Iris require a minimum of care but they love the sun, must have good drainage, and should be kept free of weeds and grass. No other flower gives so much beauty for so little effort, time or money.

TIFFANY

MISS CALIFORNIA

*Here is a
Starter Collection of . .*

**6 Gorgeous Iris
for only \$2.00**

Collection "A"

CALIFORNIA GOLD, yellow . .	.35

Collections IN A VARIETY OF PRICE RANGES TO FIT EVERY PURSE & EVERY TASTE FOR COLOR

Oregon-grown plants and bulbs are famous from coast to coast and are grown and enjoyed throughout the land. We grow over eight acres of Iris—one of the largest plantings in the world devoted to this hardy perennial. Orders for these collections are filled with plants of the same size and quality as if purchased individually . . . You will be delighted with them and their performance in your garden.

GARDEN MAGIC

PRAIRIE SUNSET

The amazing array of color that may be brought to a garden featuring Irises is well illustrated by the 35 color plates presented in this folder. This is but a sample, however, for the variety of hue, tone and shade is almost without limit. On the next page will be found well over 100 sorts, with adequate short description of each. You may have them tall or short, early and late, in rich,

velvety deep colors or delicate pastel tints. The varieties we offer are all hardy, vigorous growers and free bloomers. They don't have to be dug up annually, moved, stored or coddled. You can dig, thin, and re-set them in a few years when they have become crowded. Each plant set out in your garden now will soon form a big clump and a mass of flowers year after year.

How to Order . .

Send check, draft or money order. An order blank is enclosed for your convenience.

NO C.O.D.s, please. This adds to expense and entails red tape for you and for us.

Minimum Order \$2.00.

All orders will be sent to you postpaid. We ship thousands of orders to every state each year—from Maine to California, from Wisconsin to the Rio Grande. Delivery time extends from early July to late September. Place your order now, receive your plants early, and plant immediately upon arrival. They will be a joy to you and the envy of your friends and neighbors.

Hints on Growing Iris

1. Select a sunny place, well drained.
2. Plant rhizomes just below surface of soil, spread out rootlets.
3. Cultivate shallow, just stir top soil and keep weed-free.
4. Use bone meal as safe fertilizer . . . none necessary if soil reasonably fertile. Don't use manure around plants.

THAT'S ABOUT ALL THERE IS TO IT!
